Outcomes

Objectives

- To present the activities and projects carried on by RAS.
- To inform to civil society about the need of the agroecological productive systems of the dynamic management of local varieties.

Positive and negative points

Strengths

- High participation in the conference: Biocultura is a good event to make promotion activities.

Weaknesses

- No weaknesses detected.

Relevance

- Contact and coordination with the very formal organic sector in Andalusia.

Perspectives

- Continue the collaboration with Biocultura but organising a two hours activity.
