Date	21/01/2017
DIVERSIFOOD partner(s) involved	RAS
Name (farmer/s, farm or association)	Plantaromed, RAC, Finca La Yana and Finca La Alegría
Country	Spain
Village-Place	Jerez de la Frontera
Address	Finca La Yanna (https://goo.gl/maps/TE8DHLB8rwA2)
GPS (if possible)	
Species	Vegetables
Documents distributed (e.g. DIVERSIFOOD brochure, booklet)	Poster, presentation, road map and agenda.
Stakeholder involved (e.g. other experts, policymakers, scientists, farmers, extension services or stakeholders)	Farmers, gardeners, consumers, technicians and processors.

Outcomes

Objectives

• Implement a series of collective actions on the specified horticultural species (tomato and brassicas), which have an impact on innovation in the management of biodiversity cultivated in Andalusia.

Positive and negative points

Strengths

 High participation of farmers and high commitment with the conservation and use of the varieties.

Weaknesses

• Participants don't have a deep knowledge about seed production of brassicas.

Relevance

RAS starts de collective recovery of brassica varieties.

Perspectives

• Include training in brassica seed production in next actions and projects.
