Stakeholder involved (e.g. other experts, policymakers, scientists, farmers, extension services or stakeholders)	Consumers, gardeners, technicians and students.

Outcomes

Objectives

- To contribute to the training of the students on the promotion of the production and consumption of local varieties and to communicate the work done in DIVERSIFOOD project.

Positive and negative points

Strengths

- The collaboration with CERAI.

Weaknesses

- People interested in agroecology still have no knowledge in seed production and local varieties.

Relevance

To interact and train people interested in agroecology.

Tricks for other partners

Is essential to collaborate with organisations working for food sovereignty.

Perspectives

To strengthen the collaboration with CERAI.
